

Top Apps For Every Realtor

Home Inspection Carolina

Our app allows you to schedule an inspection from your phone or tablet. See scheduling availability and choose the time you need. You can even request the inspector you know and trust. Use our app for record retention, view current or past inspections at any time. Go to www.HICarolina.com and click the link "Download Our App" We will send you an email on how to "add our app to your home screen," making scheduling inspections easy!

RPR Mobile-Realtors Property Resource

- Gathers all available data on a property to one source
- Search MLS, CIE, and public records
- add notes and photos to a property
- Create reports on the property and send it to your clients

Google Translate

- Translate between more than 100+ languages
- Converse naturally and let Google translate
- Speak, type, write or take a picture to translate
- Translate offline while traveling. No internet connection needed.

Tiny Scanner Pro

Convert physical Documents to PDF simply using the camera on your phone. Physically sign a document then upload it on the spot to your phone saving you lots of time.

Open Home Pro

Open House app that helps you generate leads quickly.

- Find out if a visitor is working with an agent and is pre-approved for a mortgage
- Add notes and comments as potential buyers walk through the property
- Customize questions to ask open house visitors
- Automatic follow-up emails are sent to visitors after the open house
- Export collected data to CSV file
